Gripper®
Connector

INTRODUCING THE WORLD'S LIGHTEST 5-CHANNEL CABLE PROTECTOR!

GRIP GUARD 5-CHANNEL CABLE PROTECTORS include many patented-pending features, including our "Gripper Connectors" with a new lightweight design. **At a weight of only 12.75 lbs, Grip Guard is up to 60% lighter than other leading polyurethane 5-channel cable protectors, and up to 75% lighter than other rubber 5-channel cable protectors on the market.**

The Gripper® Connector is ergonomically designed to fit your hand, which allows for easy handling and transport. This connector also locks multiple cable protectors tightly together to provide a safe crossing for vehicle and pedestrian traffic while protecting valuable electrical cables and hose lines.

This modular interlocking design is ideal for use in most public entertainment venues, light commercial, and utility applications where cable protection is needed. Grip Guard® Cable Protectors are made from maintenance free polyurethane. When compared to other rubber manufactured cable protectors, GRIP GUARD® is up to 75% lighter without compromising the required strength and durability.
